

DISTANCE LEARNING

At your own place,

With deFaye College you can study for a qualification without attending classes or lectures. You choose where you want to study in the comfort of your own home or while travelling to and from work. And if you live in the country or a remote area you won't have to relocate just to study.

At your own pace,

How long you take to complete a course by distance education is up to you. It only takes as long as you need to achieve success. You're free to work at a pace that suits you, which means not having to keep up with others or waiting for others to catch up to you!

In your own time,

With no set classes or lectures to attend it's easy to choose study times that suit your lifestyle and commitments. There's no need to take time off work and it's so convenient for shift workers, early risers and night owls no hassles with timetables and all the flexibility you need.

With qualified and experienced tutors,

Our tutors and assessors are qualified in their field and have years of experience. You are assigned your own tutor to guide you through your course, assess your work and answer your questions. Our Student Services representatives are also there to offer you support.

And at a price you can afford,

deFaye College courses are competitively priced. Pay up front and get a 5% discount, or opt for our Easy Payment Plan where you start with a low deposit and pay the balance over time in monthly instalments. Your course could even be tax deductible. Studying has never been more affordable!

Workbooks included.

All work required for assessment is included in your unit workbooks. Once you have completed a workbook send it to your Tutor/assessor who will mark it and discuss with you any concerns.

Not working in the industry?

Should you require access to a workplace for practical experience, contact one of our friendly Students Services representatives or your Tutor and they will negotiate with an employer in your area on your behalf to assist in providing a suitable work or simulated placement to cater to the requirements of the training qualification. Your tutor/assessor will speak with your placement provider to ensure competency.
